Zeeshan Ahmad

Postdoctoral Scholar, Pritzker School of Molecular Engineering, The University of Chicago

Web: https://ahzeeshan.github.io   Email: azeeshan@uchicago.edu

Academic Positions

The University of Chicago Pritzker School of Molecular Engineering   Postdoctoral Scholar   Sept 2020 -
    Advisor: Dr. Giulia Galli

Education

Carnegie Mellon University   M.S. & Ph.D. in Mechanical Engineering   2015-20
    Thesis: "Electrolytes for Enabling Rechargeable Lithium Metal Batteries"
    Advisor: Dr. Venkat Viswanathan. GPA: 4.0/4.0
Indian Institute of Technology Delhi   B.Tech. in Mechanical Engineering   2011-15
    Thesis: "Droplet formation in a T-junction microfluidic device under electrical actuation"
    Advisors: Dr. Amit Gupta & Dr. Supreet S. Bahga. GPA: 9.4/10, Dept. Rank 1

Research Expertise

Materials Theory & Computation (Quantum Mechanical, Continuum Scale Modeling) for Batteries, Photovoltaics & Computing Applications; Machine Learning for the Physical Sciences & Engineering

Research Accomplishments

Ph.D. thesis: *Electrolytes for Enabling Rechargeable Lithium Metal Batteries.*

- Derived generalized design rules for electrode/electrolyte interface stability in solid-state batteries using analytical and computational modeling. Discovered *density-driven* stability regime with soft solid electrolytes

- Performed high throughput screening of inorganic solids for electrolyte applications based on the developed stability criteria. Employed machine learning to serve as surrogate model for first-principles calculations

- Collaborated with experimentalists to validate the developed theory, confirming the *density-driven* stability mechanism, showing large improvement in Li metal solid-state battery performance at high current densities

Postdoctoral Research: *Theory & Computation for developing and understanding hybrid organic-inorganic semiconductors for energy and computing applications.*

- Quantified electron Rashba spin-orbit coupling effects at different surfaces of the perovskite $MAPbBr_3$ for solar cell applications, resolving a controversy on the large disparities observed in experiments

- Investigated effects of excess PbI_2 precursor on the presence of defects, charge transfer and energy level alignments through first-principles simulations of surfaces and interfaces in perovskite solar cells

- Collaborated with experimentalists within Energy Frontier Research Center to validate the theory and propose new design strategies

Publications

Google Scholar Link: Citations: 483, h-index: 9 (as of Sept 30, 2021)

Science 2017 Conference, University of Pittsburgh (2017). **Best Poster Award**

[PS1] **Z. Ahmad**, V. Viswanathan, "Tin as Anode Material for Lithium-ion batteries"
1st Annual Electrochemical Energy Symposium, Carnegie Mellon University (2015). **Best Poster Award**

Awards and Fellowships

American Physical Society Energy Research Workshop Travel Award, 2019.

Bushnell Fellowship in Engineering, Carnegie Mellon University, for doctoral research in nanotechnology, 2018.

Phillips and Huang Family Fellowship in Energy, Carnegie Mellon University, 2016.

Institute Silver Medal at IIT Delhi, for graduating at the top of the department batch, 2015.

Nayyar Perwez Shahabuddin Medal at IIT Delhi, awarded for research record and potential, 2015.

Institute Semester Merit Prize (six times) at IIT Delhi, 2012-2015.

IIT Delhi Alumni Association Scholarship for excellent academic record, 2013 & 2014.

Jagdishwar & Maya Jaluria Scholarship at IIT Delhi, 2013 & 2014.

S.C. Mehrotra's Award at IIT Delhi, 2013.

Kishore Vaigyanik Protsahan Yojana (KVPY) Fellowship by Govt. of India, 2011.

Teaching Experience

Teaching Assistant   Fluid Mechanics (undergraduate), Carnegie Mellon University   Spring 2018 & 2019

Training, Mentoring & Advising Experience

Yizhi Zhu, Ph.D. student, U Chicago		2021-
Mohd Babar, Ph.D. student, CMU		2021-
Shang Zhu, Ph.D. student, CMU		2019-2021
Victor Venturi, Ph.D. student, CMU		2017-2020
Chinmay Maheshwari, undergrad intern, CMU	Post-grad: Ph.D. student, UC Berkeley	2017
Ashwini Gupta, undergrad intern, CMU	Post-grad: Ph.D. student, Johns Hopkins	2016

Academic Service

- Reviewer:
    - Journals: Physical Review Letters, Journal of the American Chemical Society, Physical Review X, Physical Review B, Journal of Physics: Condensed Matter, Computational Materials Science, Machine Learning: Science and Technology, Scientific Data

- – Conferences: NeurIPS (Machine Learning & the Physical Sciences Workshop, 2019 & 2020)
- University Committees:
  - – Graduate Student Representative, Carnegie Mellon Graduate Student Assembly (2018 - 2019).
  - – Member, Campus Affairs Committee (2018 - 2019). Working group focused on mental health, workplace bullying & grad student housing

Additional Training

Quantum Matters in Materials Science Workshop, National Insitute of Standards and Technology (virtual), 2020

Artificial Intelligence for Materials Science Workshop, National Insitute of Standards and Technology, 2019

International Summer School on Computational Quantum Materials, University of Sherbrooke, 2018

SUNCAT Summer Institute: Fundamentals and Applications of Heterogeneous Catalysis, Stanford University, 2017
